## Description

---

The Danish Electrochemical Society (DEF) is organising an annual two day conference on “Electrochemical Science and Technology”, which will be held the 9-10th of October, 2014, at Radiometer Medical in Copenhagen. The ambition of the conference is to foster an interdisciplinary interaction between students, researchers and industry professionals working in the broad area of ‘Electrochemical Science and Technology’.

Contributions covering developments in fundamental and applied research in electrochemistry and relevant experimental techniques are encouraged.

The meeting will be held in English, and will commence immediately after the General Assembly which is scheduled to take one hour and will be held in Danish. The meeting will start after lunch on the 9th of October. The final programme will be published in September.

Note that the abstract deadline has been extended until the 15th of August.

See attached poster for more information.

Hope to see you at the meeting!
