

DEF ANNUAL MEETING 2017

Event - DEF ANNUAL MEETING 2017

Title	DEF ANNUAL MEETING 2017
When	Thu, 2. November 2017 - Fri, 3. November 2017
Created by	Yanet

Description

The Danish Electrochemical Society (DEF) is organising an annual two-day conference on Electrochemical Science and Technology. This year the event is co-organised by a number of R&D projects revolving around Fuel Cell and Electrolysis technologies for operation at low temperatures ($< 200\text{ }^{\circ}\text{C}$) such as polymer electrolyte membrane (PEM)-based cells and alkaline electrolysis cells.

The society welcomes both academic and industrial researchers / professionals at all career stages to present their work. Presentations for the conference may be based either on completed research projects or on ongoing research.
